

M&B Machine Over the Board Mount for 96" Polyvision eno

Part # OBM-100-96ENO
CDW EDC #: 2007458

Product specifications:

This over the board mount can be used to mount the 96" Polyvision eno 2810 interactive whiteboards over an existing chalkboard, whiteboard or other obstruction.

Technical Specifications:

Able to accommodate 1 3/4" to 4" deep chalk tray or board surround

Able to span chalkboards with heights between 45 1/2" to 67 1/2"

End brackets can be mounted inward or outward for maximum flexibility and aesthetics

Rigid aluminum construction

Side holes in rails provide for behind-board cable management

Designed to mount under the chalk tray and above the board, mounting directly to wall surface.

All assembly hardware and board mounting hardware included.

Hardware not included for wall mounting.

Can be mounted to block, wood, drywall and other wall surfaces using appropriate hardware for application.

Three rails are included to accommodate the larger width and three mounting straps on the Polyvision 2810 eno.

Made in USA.

Compatibility:

Polyvision eno 2810 96"

Options:

Adapter kit available for up to 8" deep chalk tray (OBM-100-DPEN0)

For Promethean, Polyvision 78" boards, use OBM-100-UV

For SMARTBoard or TeamBoard use OBM-100-SMART

For Promethean AB+2 Fixed use OBM-100-AB2F
