

M&B Machine SMART Technologies Over the Board Mount

Part # OBM-100-SMART
CDW EDC # 2007472

Product details:

This over the board mount can be used to mount interactive whiteboards from SMART Technologies and TeamBoard over an existing chalkboard, whiteboard or other wall obstruction.

Technical Specifications:

Able to accommodate 1 ¾" to 4" deep chalk tray or board surround

Able to span chalkboards with heights between 45 1/2" to 67 1/2"

End brackets can be mounted inward or outward for maximum flexibility and aesthetics

Rigid aluminum construction

Side holes in rails provide for behind-board cable management

Designed to mount under the chalk tray and above the board, mounting directly to wall surface.

All assembly hardware and board mounting hardware included.

Hardware not included for wall mounting.

Can be mounted to block, wood, drywall and other wall surfaces using appropriate hardware for application.

Made in USA.

Compatibility:

SMART Technologies 600 series, 800 series
TeamBoard

Options:

OBM-100-DEEP - Adapter kit available for up to 8" deep chalk tray.
